Supplementary K

029: Axles of various lengths.
029: axes en différentes longueurs.
029: Assen in verschillende lengtes.
029: Assi in diverse lunghezze.
029: akser i forskellige længder
nyheder

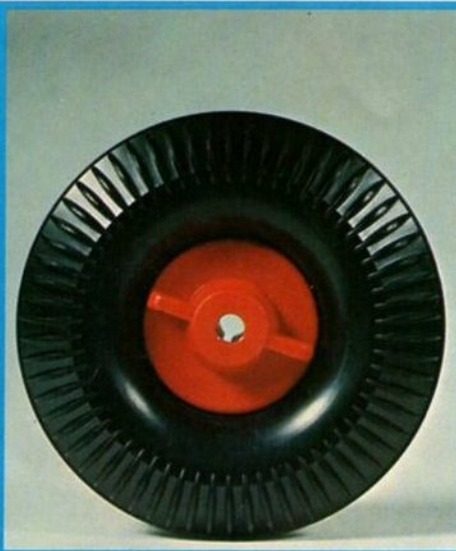

017: Building block 5.
017: pierre de construction 5.
017: Bouwsteen 5.
017: Elemento 5.
017: byggesten 5.

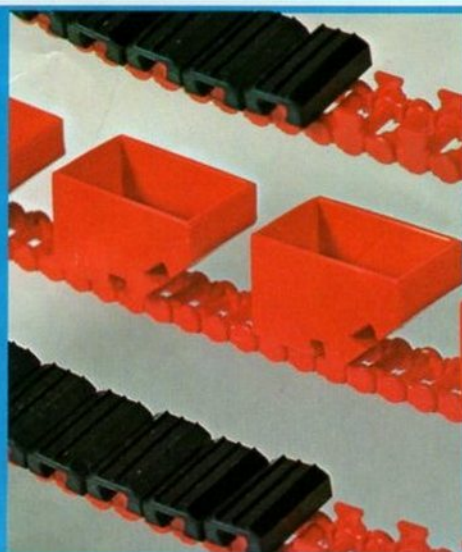

016: from the basic program:
Wheels and base plates.
(90 x 45 and 45 x 45 mm).
016: programme «maternelle»:
roues et plaques de base
(90 x 45 et 45 x 45 mm).
016: Uit het onderbouw-programma:
Onderbouw-wielen en basisplaten.
(90 x 45 en 45 x 45 mm.)
016: Dal programma base:
ruote e piastre fondamentali.
(90 x 45 e 45 x 45 mm).
016: fra begynderprogrammet hjul
fra begynder sæt og grundplader
(90 x 45, 45 x 45 mm).

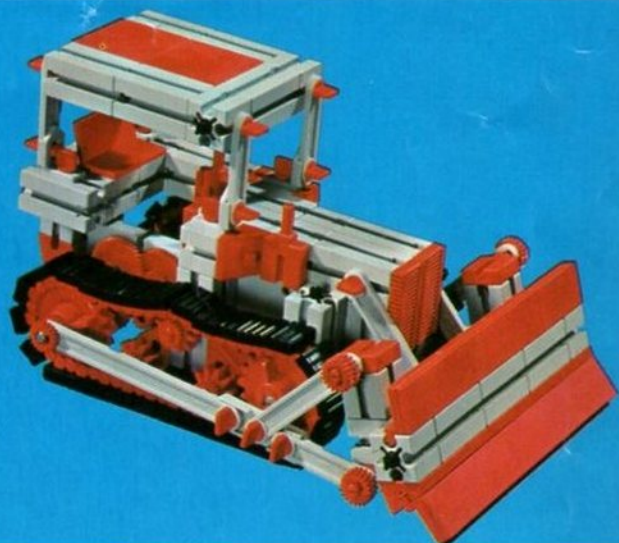

its • Boîtes de reassortissement • Confe Aanvullingsdozen • Suppleringskassen

028: 4 large wheels with hubs and long axles.
028: 4 grands pneus avec moyeux et axes longs.
028: 4 grote banden, met naven en lange assen.
028: 4 grandi copertoni, mozzi e assi lunghi.
028: 4 store hjul med nav og lange aksler

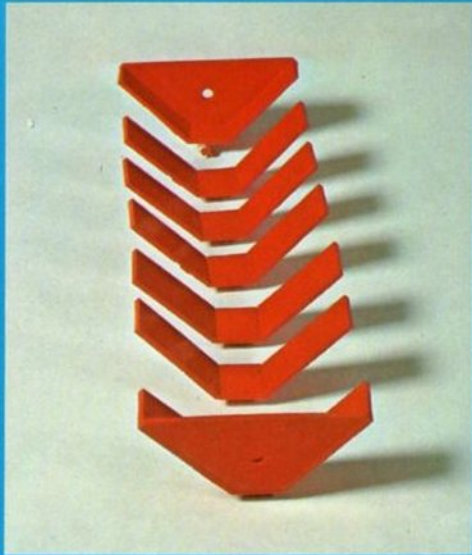

020: Chain drive with special links and profile plates for caterpillar vehicles. Containers for transport of solids and liquids.
020: patins de chenille pour la construction de véhicules chenilles. Chaîne de transmission avec accessoires pour véhicules chenilles. Benne transporteuse pour matériaux solides et liquides.
020: Rupschakels om rupsvoertuigen uit te bouwen. Aandrijfketting met schakels ter aanvulling en profieplaten voor rupsvoertuigen. Transportbak om vaste- en vloeistoffen te transporteren.
020: Catena di trasmissione con anelli addizionali e elementi copri-cingoli per veicoli cingolati. Tazze per il trasporto di materiali solidi e liquidi.
020: larvefodskæde til bygning af modeller med larvefødder, kædeded med ekstra tilslutningsdel og profilplader til larvefodsmodeller, transportskovle til transport af faste og flydende stoffer.

mini-mot. 2: mini motor with lifting mechanism. Rack and pinion gear permits the construction of models which lift and lower or slide loads.
mini-mot. 2: c.a.d. mini-mot. Avec dispositif de levage. Le dispositif de levage permet la construction de modèle avec mouvement de levage et transversal.
Mini-mot. 2: mini-motor met hefaandrijving. Met de hefaandrijving is het mogelijk modellen te bouwen, die hef- of schuifbewegingen uitvoeren.
mini-mot. 2: mini-motor con ingranaggio di sollevamento. L'ingranaggio di sollevamento permette la costruzione di modelli con movimenti di sollevamento e di spinta.
mini-mot. 2: minimotor med løfteudveksling. Løfteudvekslingen muliggør bygningen af modeller til løfte og skubbebevægelser.

ezioni aggiuzionali

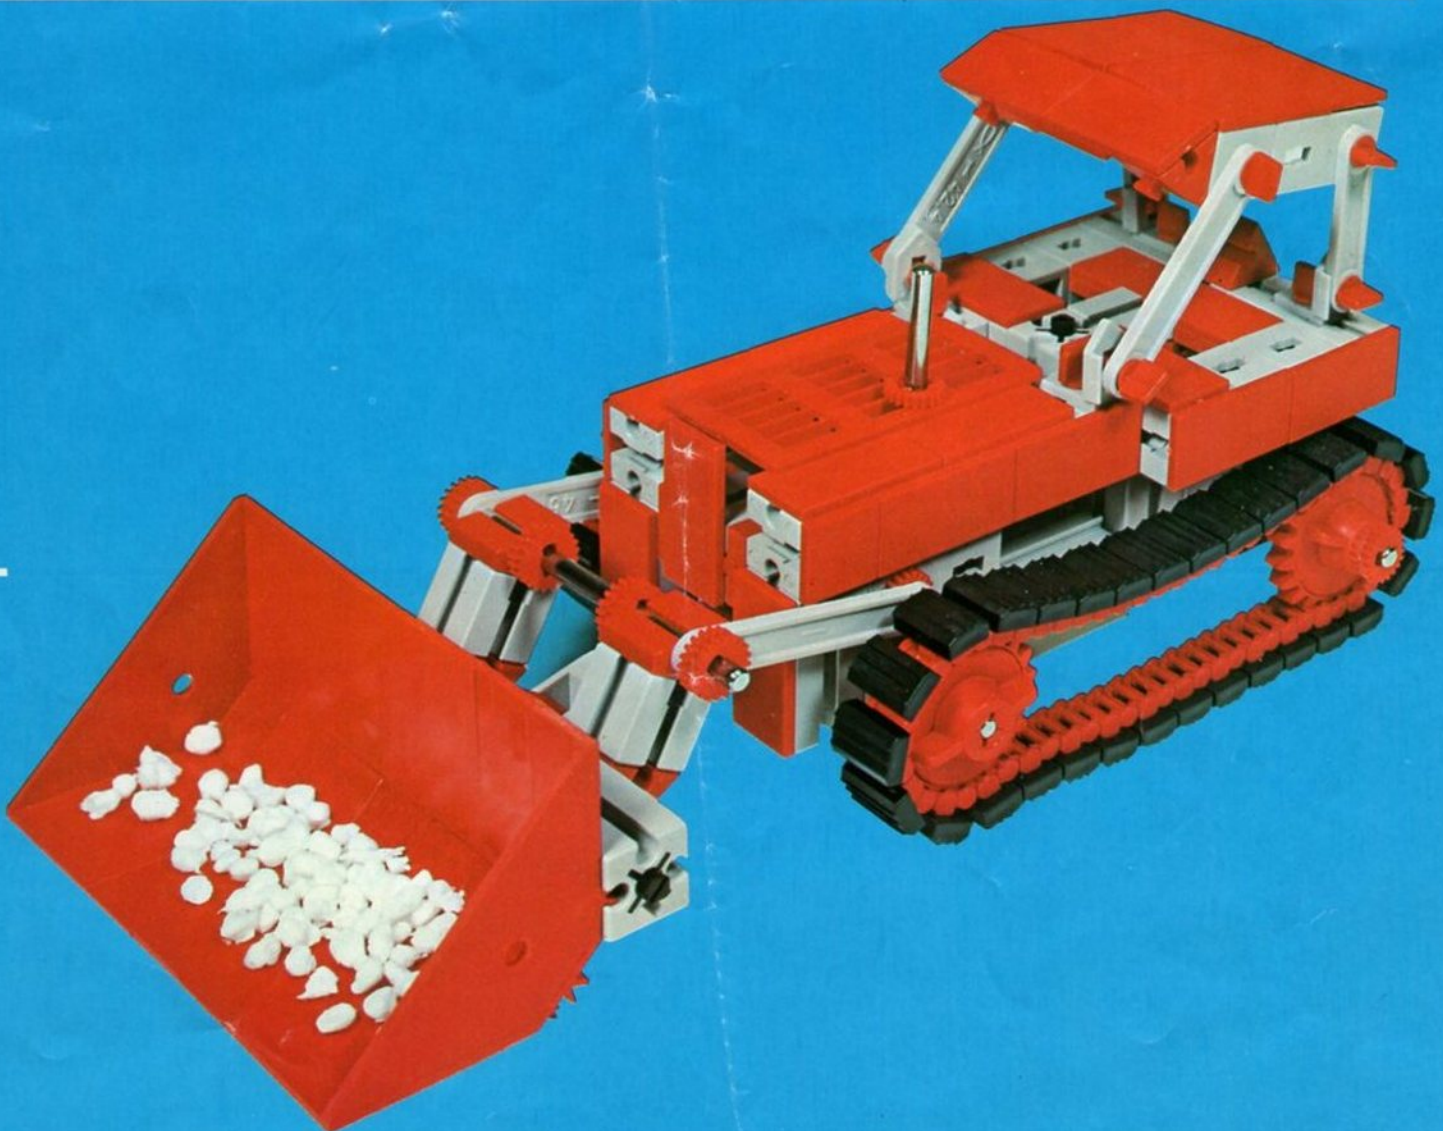

018: Building parts for scoop, bucket and container.

018: pièces de construction pour pelle d'excavateur, niveleuse et godet de transport.

018: Bouwdelen voor sleuvengraver, buldozer en jaadschop.

018: Elementi per la costruzione di tazze traganti, pala spianatrice e contenitori per trasporti.

018: byggedels til gravemaskine, planeringskøvl og transportbeholder
