- Achtung! Verletzungsgefahr an Bauteilen mit funktionsbedingten scharfen Kanten und Spitzen!
- Caution! Be careful not to hurt yourself on components with sharp or pointed edges!
- Attention! Risque de blessure sur les éléments comportant des arêtes et o pointes vives indispensables au bon fonctionnement!
- Let op! U kunt zich bezeren aan bouwstenen met sherpe randen of punten!
- Attenzione! Esiste il pericolo di lesione con i pezzi di costruzione che hanno bordi e punte spigolosi necessari per la funzionalita del pezzo!

- Atenção! Perigo de ferimentos em peças componentes com cantos vivos e pontas obrigatórios para o funcionamento!
- Attenzione! Pericolo di lesioni dovute a componenti con spigoli vivi e punte per motivi funzionali!
- Будьте осторожны! Об острые края деталей и и наконечники можно порезаться!
- 注意！因功能需要而带有锋利的棱边和尖角的部件可能会带来受伤危险！

Erfinder Flexprofil Art.-Nr. 143 234:
Design und Konzeption Andreas Lehrberger

- Falls die flexiblen Schienen nach dem Ausbau aus einem Modell stark gebogen sind, kannst du sie für einige Zeit auf einer der Grundplatten aufspannen. Die Biegung geht dann wieder zurück.
Falls Kugeln auf der Strecke liegen bleiben oder herausfallen: Flexprofile oder Bausteine etwas verschieben bis es funktioniert (siehe Pfeile ↔).
- If the flex-rails are bent too much after disassembling the model, they can be straightened by clamping them on the base plate for a while. This straightens the bend.
If balls stick or fall out along the track: Move flexible channels or blocks slightly to remedy (see arrows ↔).
- Nous vous recommandons de monter les rails souples trop courbés après le démontage de la maquette sur l'une des plaques de base. Ceci a pour effet de détendre l'inflexion après quelques temps.
Si les billes s'immobilisent sur le parcours ou tombent hors du parcours: déplacez légèrement les profils souples ou les éléments de construction jusqu'à ce que la maquette fonctionne (se référer aux flèches ↔).
- Wanneer de flexibele rails erg gebogen zijn nadat je ze uit een model hebt uitgebouwd, kun je ze een poosje op één van de grondplaten opspannen. Daarmee kan de oorspronkelijke buiging weer worden hersteld.
Als er kogels op het traject blijven liggen of eruit vallen: de flexibele profielen of bouwstenen iets verschuiven tot het weer goed werkt (zie pijl ↔).
- En caso de que los carriles flexibles tras su desmontaje de un modelo estén intensamente curvados, los puedes tensor durante algún tiempo sobre una de las placas de base. La curvatura entonces se retrae nuevamente.
En caso que queden bolas en el tramo o se caigan: Desplazar algo los perfiles flexibles a los elementos hasta que funcione (véase flechas ↔).
- Caso as trilhos flexíveis estejam muito dobrados após a desmontagem de um modelo, poderás fixá-los por algum tempo numa placa de base. A dobra irá, então, desaparecer.
Caso esferas fiquem paradas sobre o percurso ou caíam: deslocar um pouco os perfis flexíveis ou módulos até que funcione (ver setas ↔).
- Se le rotaie flessibili dopo lo smontaggio da un modello sono molto piegate, le puoi bloccare per un po' di tempo su una delle piastre di base. In tal modo si ripristina la piegatura.
Se lungo il percorso rimangono o fuoriescono delle sfere: spostare un po' i profili flessibili o i moduli finché non funziona (vedi frecce ↔).
- Если гибкие рельсы после разборки модели сильно погнуты, то можно на некоторое время растянуть и закрепить их на монтажной плите. Тогда рельсы разогнутся.
Если шарики залегают на участке или выпадают: немного сдвиньте гибкие профили или детали так, чтобы конструкция работала (см. стрелку ↔).
- 如果将软轨道从模型中拆下时弯曲严重，则可以在平板上将它们撑开一段时间。弯曲会重新消失。
如果钢珠在轨道上不运动或者从轨道上掉下来，则：移动一下软轨道轮廓或者模块，直到钢珠能正常运动（见箭头 ↔）。

- Alle Einzelteile, insbesondere bewegliche Teile sind falls notwendig zu warten und zu reinigen.
- All components, especially moving parts, should be maintained and cleaned as necessary.
- Toutes les pièces détachées et en particulier les pièces mobiles, sont, si nécessaire, à entretenir et à nettoyer.
- Alle onderdelen, vooral de bewegende delen, kunnen, indien noodzakelijk, onderhouden en gereinigd worden.
- Es necesario limpiar y mantener en buen estado todas las diferentes piezas - especialmente las piezas móviles.
- Caso necessário, todas as peças individuais, especialmente peças móveis, tem que ser submetidas à manutenção e ser limpadas.
- Se necessario, tutti i singoli componenti, soprattutto le parti mobili, si devono eventualmente sottoporre a manutenzione e pulizia.
- Все детали, особенно подвижные, требуют ухода и чистки.
- 必要时应保养和清洁所有零件 尤指运动部件。

▪ Falls Aufzug klemmt:

- gelbe Träger etwas auseinander schieben.
- prüfen ob Seil über Seilrollen geführt wird.
- Tonne darf nicht auf Bodenplatte aufliegen!
- Falls Kugeln auf der Strecke liegen bleiben oder herausfallen: Flexprofile oder Bausteine etwas verschieben bis es funktioniert (siehe Pfeile ↔).

▪ If elevator sticks:

- Push yellow supports apart slightly.
- Check whether cable runs over pulleys.
- The barrel should not be in contact with the base plate!
- If balls stick or fall out along the track: Move flexible channels or blocks slightly to remedy (see arrows ↔).

▪ Si l'ascenseur se bloque :

- poussez les supports jaunes un petit peu vers l'extérieur.
- assurez-vous que les poulies guident le câble correctement.
- Le tonneau ne doit pas entrer en contact avec la plaque de base !
- Si les billes s'immobilisent sur le parcours ou tombent hors du parcours : déplacez légèrement les profils souples ou les éléments de construction jusqu'à ce que la maquette fonctionne (se référer aux flèches ↔).

▪ Als de lift klemt:

- de gele dragers iets uit elkaar schuiven.
- controleren of het koord over de rollen wordt geleid.
- De ton mag niet op de bodemplaat rusten!
- Als er kogels op het traject blijven liggen of eruit vallen: de flexibele profielen of bouwstenen iets verschuiven tot het weer goed werkt (zie pijl ↔).

▪ En caso que el elevador se atasque:

- Separar algo las vigas amarillas.
- Comprobar si la cuerda se conduce sobre sus poleas.
- ¡El tonel no puede apoyar sobre la placa de suelo!
- En caso que queden bolas en el tramo o se caigan: Desplazar algo los perfiles flexibles o los elementos hasta que funcione (véase flechas ↔).

▪ Caso o elevador fique emperre:

- afastar um pouco os suportes amarelos um do outro.
- testar se a cordão de nylon está passando sobre as roldanas.
- Il fusto non deve essere appoggiato sulla piastra di base!
- Caso esferas fiquem paradas sobre o percurso ou caiam: deslocar um pouco os perfis flexiveis ou módulos até que funcione (ver setas ↔).

▪ Se l'ascenseur si blocca:

- allontanare un po' le travi gialle.
- verificare se la fune passa sulle pulegge.
- Il fusto non deve essere appoggiato sulla piastra di base!
- Se lungo il percorso rimangono o fuoriescono delle sfere: spostare un po' i profili flessibili o i moduli finché non funziona (vedi frecce ↔).

▪ Если подъёмник заклинивает:

- раздвиньте немного жёлтую опору.
- проверьте, проходит ли трос по роликам.
- Бочка не должна лежать на полу!
- Если шарики залегают на участке или выпадают: немного сдвиньте гибкие профили или детали так, чтобы конструкция работала (см. стрелку ↔).

▪ 如果升降机卡住，则：

- 将黄色的支架分开一点。
- 检查，绳子是否正确通过导绳滑轮。
- 桶不得放在地面上！
- 如果钢珠在轨道上不运动或者从轨道上掉下来，则：移动一下软轨道轮廓或者模块直到钢珠能正常运动（见箭头 ↔）。
