FAN CLUB Model

Truck with container trailer and gantry crane

Combine the new ADVANCED Universal 4 building set with the ADVANCED Universal Starter and you can recreate the new Fan Club Model for yourself. The truck with its long semi-trailer can position itself directly behind the mobile and rotating gantry crane. You can unload the container from the semi-trailer with it. If you want to uncouple the trailer from the tractor, that also isn't a problem at all. Simply extend the struts of the semi-trailer, uncouple the semi-trailer and your truck can already move ahead without a semi-trailer.

A really successful model that will surely be a lot of fun for you to not only build but also play.

Have fun reconstructing the model
