**NO.60**  
COLLECTIBLES

*On the previous pages you have already met the five Animal Friends - with this building instruction it is even one more: The cool **DRAGON** also wants to be with you!*

Henry the horse, Cleo the cat, Sammy the spider, Larry the lizard and Sandy the scorpion - you can bring these five friends home with the Animal Friends construction kit. And what do you call your new friend the dragon? Danny? Debby? I'm sure you can think of a suitable name! Everyone knows dragons as mythical creatures from myths, legends and fairy tales, and you can probably think of a few movies and stories in which you have already met a dragon. Did you know that people thought that dragons really existed until modern times? That was only 500 years ago...
